

United Metro Energy supplies fuel for vessels and marinas in the New York Region.

Convenient Diesel Fuel Dock

United Metro Energy maintains a diesel fueling dock on the south side of Newtown Creek, just off the East River and west of the J.J. Byrne Bridge at Greenpoint Avenue.

- Serves commercial vessels, ferries, tugboats, yachts and small vessels
- Deep draft of 18' at high tide
- Fueling station staffed for safe operations
- By appointment only
- Latitude: 40.73443 N – Longitude: 73.941357 W
- For information, call 718-383-1400

Marine Fuel Deliveries

United Metro Energy delivers diesel and gasoline by truck to marinas in the New York Harbor and Long Island.

PRODUCTS AND SERVICES

Products

- **BIOHEAT® FUEL:** The greener, cleaner fuel is better for the environment, improves efficiency and lowers operating costs. It requires no modifications to your current oil-fired heating system. It can save you money with the New York State Clean Heating Fuel Tax Credit. New York City requires that all heating oil used within the five boroughs is blended with at least 2 percent biodiesel (a B2 Bioheat® fuel blend).
- **HEATING OIL:** United Metro Energy supplies No. 2, No. 4 and No. 6 heating oil to individual homes, mid-to-large size apartment buildings, factories and industrial production facilities.
- **NATURAL GAS:** United Metro Energy is an ESCO (Energy Service Company). United Metro Energy provides natural gas at lower prices than the local utility, helping to lower the energy costs of heating, ventilation, air conditioning, cooking or gas fired equipment.
- **ULTRA-LOW SULFUR DIESEL (ULSD):** ULSD is a New York State mandated environmentally friendly heating fuel that lowers energy costs through longer equipment life, higher boiler efficiency, greater fuel consistency, and reduced maintenance and cleanings.

Services

- **EQUIPMENT INSTALLATIONS:** We install hot water heaters, boilers, warm air furnaces, retention-head burners, oil tanks, natural gas pipes, and central air conditioners. We install automated energy tracking systems to monitor building energy usage.
- **TESTING & CLEANING OF TANKS:** United Metro Energy can clean and test your existing tank to maximize efficiency. This process will also ensure a smooth transition to Bioheat® fuel and/or natural gas. United Metro Energy knows what it takes to make your system run flawlessly.
- **CONVERSIONS:** You can go from heating oil to natural gas; transition from heating oil to Bioheat® fuel; switch heating oil grades from #6 to #4 to #2; or set up a dual-fuel system using both natural gas and heating oil/Bioheat® fuel – all with the help of United Metro Energy's certified, insured and experienced team.
- **GENERAL MAINTENANCE & REPAIRS:** All heating systems require maintenance and repairs; United Metro Energy offers full service and maintenance for your heating equipment, as well as service 24 hours a day, every day of the year.
- **ANNUAL TUNE-UPS:** United Metro Energy performs annual tune-ups with the most advanced equipment available ... providing you with everything your equipment needs and requires.
- **WATER TREATMENT:** Our comprehensive Water Treatment Program is designed to extend the life of your boiler and maximize its efficiency. Free training for building superintendents and a free engineering survey are also included.
